

## Our Bearded Dragon Project

1. You are tasked with researching one aspect of Bearded Dragons and create a presentation to share with your class. This way we will all learn how to take care of our new class pet!
2. Choose whether you will work independently or with a partner. Make sure it's someone you know will work hard to earn a good grade!
3. Use internet sites such as <http://www.thebeardeddragon.org/> and <https://a-z-animals.com/animals/> to do research.
4. Choose one of the following as your format: A poster with original artwork, a Google slide, or an Adobe Spark video

### TOPIC CHOICES:

- What is a bearded dragon? Explain its evolution and physical characteristics.
- What is a bearded dragon's native habitat? -Describe the country they originate from and their natural surroundings.
- What do bearded dragons eat? -Create a list of foods that are good and a list of foods that are bad (Types of insects, vegetables, fruits, etc..).
- How long do bearded dragons live for in the wild and in captivity? -Explain the differences, and why if there is a difference, between age in captivity vs. the wild.
- What are some important things we need to know in order to keep a pet bearded dragon in the classroom? -Create a list of important materials needed to have a bearded dragon as a pet in the classroom.
- What are some responsibilities classmates will need to know and do in order to keep our bearded dragon safe and healthy? -Create procedures and rules for classmates to abide by in order to keep the bearded dragon safe and healthy.

Your project needs to include the following:

1. A title and authors' names
2. All information relevant to the topic. The project must be creative, clear and concise.
3. An eye-catching format. Great use of colors, spacing, and visuals.
4. Writing is easy to read and in the students' own words.
5. An oral presentation of your project that is well-prepared and presented all the needed information for at least 90 seconds.

***Once the bearded dragon joins the class, each pair will have an assigned time to work with the class bearded dragon.***
